

New standard for modern power generation.
High-quality electrical devices need clean, fluctuation-free electricity – The DQ-2200E provides it!

Intertek Certificate No. 17SHS1882-01

Specifications	Inverter DQ-2200E
Max AC output (230 V)	2200 W
Rated AC output (230 V)	2000 W
Voltage regulation	Inverter
Socket	2x 230 V, 1x 12 V
Motor type	4-Stroke, OHV
Tank capacity	7 l
Run time	Up to 14 h
Noise level (idle)	55 dB (A)/7m
Dimensions (LxWxH)	540 x 280 x 490
Net weight	28 kg
Special equipment 1	Ignition keys
Special equipment 2	Oil deficiency indicator
Special equipment 3	Digital display

2200 W silent portable inverter power generator

- battery-powered electric start, easier and comfortable starting of the inverter with ignition key
- clean, quiet current without voltage fluctuations for voltage-sensitive devices
- all-new LCD display, all relevant data at a glance
- Eco-mode, which adapts to the connected devices, saves gasoline and lowers the noise emission
