

Mobile power plant - quiet, compact, independent.
Whether on tour or used as an emergency power supply, the DQ-2200 delivers clean, quiet and low-fluctuation electricity.

Specifications	Inverter DQ-2200
Max AC output (230 V)	2200 W
Rated AC output (230 V)	2000 W
Voltage regulation	Inverter
Socket	2x 230 V, 1x 12 V
Motor type	4-Stroke, OHV
Tank capacity	7 l
Run time	Up to 14 h
Noise level (idle)	55 dB (A)/7m
Dimensions (LxWxH)	540 x 280 x 490
Net weight	26 kg
Special equipment 1	Digital display
Special equipment 2	Oil deficiency indicator
Special equipment 3	Overload indicator

2200 W silent portable inverter power generator

- clean, quiet current without voltage fluctuations for voltage-sensitive devices
- all-new LCD display, all relevant data at a glance
- Eco-mode, which adapts to the connected devices, saves gasoline and lowers the noise emission
- ideal for camping, sports events, outdoor and artisans
