**high-quality clean electricity - with a simple click**  
Fluctuation-free electricity anywhere you want.  
The generator starts conveniently via remote control.

| Specifications          | Inverter DQ-2800ER |
|-------------------------|--------------------|
| Max AC output (230 V)   | 2800 W             |
| Rated AC output (230 V) | 2600 W             |
| Voltage regulation      | Inverter           |
| Socket                  | 1x 230 V, 1x 12 V  |
| Motor type              | 4-Stroke, OHV      |
| Tank capacity           | 7 l                |
| Run time                | Up to 14 h         |
| Noise level (idle)      | 56 dB (A)/7m       |
| Dimensions (LxWxH)      | 570 x 290 x 490    |
| Net weight              | 27 kg              |
| Special equipment 1     | Ignition keys      |
| Special equipment 2     | Remote control     |
| Special equipment 3     | Digital display    |

## 2800 W silent portable inverter power generator

- battery-powered electric start, easier and comfortable starting of the inverter with remote control
- easy transport due to integrated extendable handle grip and large stable wheels
- all-new LCD display, all relevant data at a glance
- Eco-mode, which adapts to the connected devices, saves gasoline and lowers the noise emission
