

DENQBAR®**Electric start - more comfortable & easier to start**

Powerful but quiet, high performance and still without voltage fluctuations - the small power plant DQ-2800E.

Intertek Certificate No. 17SHS1883-01

Specifications**Inverter DQ-2800E**

Max AC output (230 V)	2800 W
Rated AC output (230 V)	2600 W
Voltage regulation	Inverter
Socket	1x 230 V, 1x 12 V
Motor type	4-Stroke, OHV
Tank capacity	7 l
Run time	Up to 14 h
Noise level (idle)	56 dB (A)/7m
Dimensions (LxWxH)	570 x 290 x 490
Net weight	27 kg
Special equipment 1	Ignition keys
Special equipment 2	Oil deficiency indicator
Special equipment 3	Digital display

2800 W silent portable inverter power generator

- battery-powered electric start, easier and comfortable starting of the inverter with ignition key
- transport due to integrated extendable handle grip and large stable wheels
- all-new LCD display, all relevant data at a glance
- Eco-mode, which adapts to the connected devices, saves gasoline and lowers the noise emission
