

**DENQBAR®****Powerful and reliable - high-quality electricity**

Innovative inverter technology ensures clean power without fluctuations for sensitive electrical devices.

**Specifications****Inverter DQ-2800**

Max AC output (230 V)	2800 W
Rated AC output (230 V)	2600 W
Voltage regulation	Inverter
Socket	2x 230 V, 1x 12 V
Motor type	4-Stroke, OHV
Tank capacity	7 l
Run time	Up to 14 h
Noise level (idle)	56 dB (A)/7m
Dimensions (LxWxH)	570 x 290 x 490
Net weight	27 kg
Special equipment 1	Digital display
Special equipment 2	Oil deficiency indicator
Special equipment 3	Overload indicator

**2800 W silent portable inverter power generator**

- easy transport due to integrated extendable handle grip and large stable wheels
- all-new LCD display, all relevant data at a glance
- Eco-mode, which adapts to the connected devices, saves gasoline and lowers the noise emission
- ideal for camping, sports events, outdoor and artisans
