

Tamping rammer DQ-0286

The ultimate power pack - perfect compression
powerful and compact – the DQ-0286 always compresses perfectly
even in narrow space condition.

| Specifications | Tamping rammer DQ-0286 |
|----------------------|-----------------------------------|
| Total weight | 82 kg |
| Impact force | 14 kN |
| Impact number | Up to 720 per minute |
| Engine type | 4-stroke, air cooled OHV |
| Maximum engine power | 4,8 kW (6,5 hp) |
| Capacity | 196cm ³ |
| Gasoline | Petrol, E10 suitable |
| Tank capacity | 2,8 l |
| Working width | 290 mm |
| Jumping stroke | Up to 85 mm |
| Application area | Channel digging |
| Application area | Road and patio construction |
| Application area | Coarse grain and cohesive surface |

Gasoline powered tamping rammer with 82 kg

- compresses even most narrow spaces, optimal for channel digging, repair work and pipe work
- big stroke and high ramming frequency guarantee ideal compression results
- perfect suitable for coarse grain, mixed granular and cohesive surfaces
- maximum mobility by compact design, sling bar and transport undercarriage (included)
